

COMMUNITY SPECIFICATION • ONE-TIME \$30 CAPITAL ENTRY • BY LEXVRA

Community Matrix Guide

The complete participant manual: one-time \$30 capital entry, 14-node deterministic routing, and 12-slot autonomous scaling.

CAPITAL ENTRY: Strictly \$30.00 Once

HIGHER SLOTS: 100% Free Auto-Upgrades

SETTLEMENT: Direct Wallet Push

SECURITY: Non-Custodial Smart Contracts

Three Core Invariants Protecting Participant Capital

Fundamental smart contract rules governing participant onboarding, progression, and settlement.

01

Strictly One-Time \$30 Capital Entry

Participants deposit personal capital exactly once into Slot 1 (\$30). The smart contract programmatically prohibits direct out-of-pocket purchases of Slots 2 through 12.

Zero Out-of-Pocket Beyond Slot 1

02

Autonomous Smart Contract Scaling

Higher slot tiers are financed exclusively from internal matrix completion yield (Nodes 4 & 5), advancing your tier without drawing from personal savings.

Self-Funding Tier Progression

03

Block-Speed Push Settlement

No company holds your capital. Smart contracts disburse payouts directly into your connected Web3 wallet upon node confirmation with zero withdrawal latency.

Direct Wallet-to-Wallet Execution

Onboarding Sequence: 4 Steps to Matrix Activation

Step-by-step procedure from initial wallet pairing to receiving direct on-chain cashflow.

01

Connect Wallet

Connect Trobsafe or compatible Web3 wallet. No password, email, or personal identity credentials required.

Self-Custodial Connection

02

Bind Sponsor ID

Enter your inviter's unique 5-digit referral code to register your cryptographic placement on Trobium.

Numeric Lineage Placement

03

Activate Slot 1 (\$30)

Deposit \$30.00 USD in live TROB Coin to initialize your personal 14-node binary earning board.

Board Initialization

04

Sponsor 2 Referrals

Introduce 2 active participants to satisfy the qualification benchmark, unlocking higher slots and pool payouts.

Full Qualification Met

14-Node Matrix Board Architecture & Payout Routing

Deterministic three-tier depth structure allocating capital across matrix owner, uplines, and pools.

ROW 1 • 2 NODES

Nodes 1 & 2: Sponsor Pass-Up

The two positions directly beneath your root node. Both deposits (\$60 total) pass up to qualify direct upline sponsors and support network depth.

Passes up to direct upline sponsor

ROW 2 • 4 NODES

Nodes 3 to 6: Cash & Auto-Upgrade

Node 3 provides 100% capital recovery (\$30 cash)! Nodes 4 & 5 (\$60 total) route to the 4 Protocol Pools and trigger the automatic unlock of Slot 2! Node 6 pays \$30 cash!

Node 3 = 100% Capital Recovery (\$30)

ROW 3 • 8 NODES

Nodes 7 to 14: Cash, Team & Reset

Nodes 8, 9, 11, 12 disburse \$120 pure cash. Nodes 7, 10, 13 route \$90 directly to downline teammates. Node 14 feeds protocol pools and recycles the board!

\$120 Cash + \$90 Spillover + Board Recycle

100% Capital Recovery on Node #3

How Equora eliminates net capital exposure early in board completion.

100%

Capital Recovery on Node #3

When the 3rd node on your board is filled, its exact \$30.00 deposit is pushed directly into your connected Web3 wallet in the same transaction block.

At this precise moment, your initial \$30.00 capital outlay is 100% recovered. Net personal financial exposure is reduced to **\$0.00**.

Risk-Free Forward Acceleration

- **Zero Net Exposure:** Initial \$30 capital returned safely to your wallet early in Cycle 1.
- **Autonomous Advance:** Nodes 4 & 5 fund the unlock of Slot 2 (\$60) automatically.
- **Additional Cash:** Nodes 6, 8, 9, 11, and 12 yield an additional \$150.00 pure profit.
- **Perpetual Inflow:** The board recycles forever, generating recurring \$180 cash cycles.

Cycle 1: Autonomous Auto-Upgrade to Slot 2 (\$60)

How Nodes 4 & 5 fund the 4 protocol pools and auto-unlock Slot 2 with zero out-of-pocket capital.

Node 4 & 5 Deposit Routing

Node 4 (\$30) and Node 5 (\$30) together accumulate **\$60.00 total**. This entire amount routes to EquoraVault.sol to fund the 4 Protocol Pools:

- 35% Ecosystem & DAO Pool (\$21.00)
- 40% Community Salary Pool (\$24.00)
- 15% Level Rewards Pool (\$9.00)
- 10% Magic Blind Box Pool (\$6.00)

Nodes 4 & 5 Accumulate Exactly 2× Slot Cost

Simultaneous Slot 2 Unlock

Upon the confirmation of Node 5, the smart contract automatically executes the slot upgrade function, unlocking **Slot 2 (\$60.00 tier)** on your behalf.

You did not spend a single cent beyond your original \$30. Your higher-tier earning board is now active and ready to fill from advancing teammates.

\$0 Out-of-Pocket for Slot 2

Cycle 2 Onward: Pure \$180 Recurring Cash per Slot 1 Board

Once Slot 2 is unlocked, auto-upgrade deductions cease permanently on Slot 1.

\$180.00

Direct Wallet Cash per Closed Board

Because Slot 2 is already active, the smart contract no longer reserves funds for auto-upgrades on Slot 1. Instead, all 6 earning positions push directly to your wallet as pure cash:

$6 \text{ Nodes} \times \$30.00 = \$180.00 \text{ Net Cash (600\% Return)}$

Perpetual Board Recycling

- **Continuous Cycling:** Board 1 resets automatically on Node 14 confirmation.
- **Concurrent Earnings:** You earn simultaneously from Slot 1 (\$180/board) and Slot 2 (\$360/board).
- **Team Lineage:** Your direct referrals always re-enter your new board upon completing theirs.
- **Global Spillover:** Higher uplines continue filling open slots across your matrix.

The 4 Automated Protocol Pools Breakdown

Nodes 4, 5, and 14 perpetually fund the community ecosystem with zero administrative deductions.

POOL 1 • 35%

Genesis DAO Pool

Distributed daily among the 100 Genesis DAO Council seat holders as protocol governance dividends.

\$31.50 per Slot 1 board

POOL 2 • 40%

Community Salary

Disbursed monthly on the 11th across Alpha, Prime, Elite, and Crown leadership ranks with rank stacking.

\$36.00 per Slot 1 board

POOL 3 • 15%

Level Rewards

Instant milestone cash bonuses (10%, 15%, 25%, 50%) pushed directly into member wallets upon rank achievement.

\$13.50 per Slot 1 board

POOL 4 • 10%

Magic Blind Box

Locked for 91 days (3 months) in live TROB Coin, generating predictable staking yields upon unlock.

\$9.00 per Slot 1 board

The 12-Slot Geometric Scaling Hierarchy (\$30 to \$61,440)

How the single initial \$30 deposit self-compounds across higher-value matrix boards.

TIER 1

Starter Slots (1 to 3)

\$30 • \$60 • \$120

Foundational entry tier where participants learn board dynamics, achieve 100% capital recovery, and establish team lineage.

Initial Onboarding & Lineage Setup

TIER 2

Growth Slots (4 to 6)

\$240 • \$480 • \$960

Direct cash payouts expand to \$1,440, \$2,880, and \$5,760 per round. All tiers funded entirely through internal matrix yield.

Rapid Yield Expansion

TIER 3

Leadership Slots (7 to 12)

\$1,920 to \$61,440

Institutional capital velocity. Slot 12 distributes \$368,640 direct cash per round, while continuously fueling protocol pools.

Pinnacle Network Velocity

Cash Payout & Pool Allocation Schedule by Slot Tier

Deterministic distribution metrics across active matrix levels.

SLOT TIER	SLOT PRICE	DIRECT CASH TO WALLET (600%)	TRANSFERRED TO 4 PROTOCOL POOLS	NODES 4 & 5 AUTO-UPGRADE
Slot 1	\$30	\$180 cash per round	\$90 to 4 Pools	\$60 → Unlocks Slot 2
Slot 2	\$60	\$360 cash per round	\$180 to 4 Pools	\$120 → Unlocks Slot 3
Slot 3	\$120	\$720 cash per round	\$360 to 4 Pools	\$240 → Unlocks Slot 4
Slot 4	\$240	\$1,440 cash per round	\$720 to 4 Pools	\$480 → Unlocks Slot 5
Slot 5	\$480	\$2,880 cash per round	\$1,440 to 4 Pools	\$960 → Unlocks Slot 6
Slot 6	\$960	\$5,760 cash per round	\$2,880 to 4 Pools	\$1,920 → Unlocks Slot 7

6 nodes pay direct cash (600%), while Nodes 4, 5, and 14 perpetually fund the 4 automated protocol pools on every completed board.

Community Salary Pool & Instant Rank Milestones

40% Community Salary settled on the 11th + 15% Level Milestone Rewards with multi-tier stacking.

ALPHA

42 COMPLETED SLOTS

25% share of 40% Salary Pool settled monthly on the 11th + 10% instant cash bonus.

Initial Leadership Tier

PRIME

84 COMPLETED SLOTS

DUAL STACKING: Collects Alpha + Prime monthly salary shares + 15% instant bonus.

Dual Stacking Benefits

ELITE

126 COMPLETED SLOTS

TRIPLE STACKING: Collects Alpha + Prime + Elite salary shares + 25% instant bonus.

Triple Stacking Benefits

CROWN

168 COMPLETED SLOTS

QUADRUPLE STACKING: Collects all 4 monthly salary tiers + 50% instant bonus.

Maximum Rank Qualification

Three Protocol Operating Guidelines

Core participant principles ensuring sustainable network scaling and uninterrupted qualification.

RULE 01

Adhere to Single \$30 Deposit

Never attempt to inject personal capital into higher slots. Let the smart contract advance your position using internal matrix yields.

One-Time Capital Principle

RULE 02

Maintain 2 Active Direct Referrals

Sponsoring 2 active participants satisfies the protocol qualification gate, unlocking full matrix scaling and ongoing protocol pool distributions.

Direct Referral Benchmark

RULE 03

Support Downline Board Completions

Assisting direct referrals to complete their boards accelerates team cycling, driving higher slot progressions and unlocking milestone salary tiers.

Collaborative Team Velocity

Frequently Asked Technical & Architectural Questions

Direct answers to key inquiries regarding capital safety, fee structures, and immutability.

What is the total personal capital requirement?

Exactly \$30.00 USD one-time for Slot 1. Slots 2 through 12 cannot be purchased with personal cash; they are unlocked autonomously via Nodes 4 & 5.

Are there recurring monthly fees or renewals?

Zero. There are no monthly subscription charges, membership maintenance costs, or platform renewal fees. Your \$30 entry is lifetime valid.

How are earnings withdrawn or claimed?

There is no withdrawal button or claiming request. Smart contracts push payments directly into your connected Web3 wallet upon block confirmation.

Can platform operators modify smart contract rules?

No. Equora smart contracts are deployed with non-upgradable bytecode on Trobium. No entity can alter payout logic, pause contracts, or withhold capital.

GET STARTED TODAY • AUTONOMOUS NON-CUSTODIAL EXECUTION

Start with \$30. Participate for Life.

1. Open the Equora.Fi portal and connect your non-custodial Web3 wallet.
2. Deposit \$30 in live TROB Coin to initialize your Slot 1 matrix board.
3. Share your 5-digit referral ID with 2 active participants to begin automated progression!
