

EQUORA.FI — Protocol Architecture & Deposit Distribution

Complete technical specification, 2-phase rollout, Genesis DAO rules, 14-node matrix math, and 4 protocol pools.

1. LAUNCH PHASES & ROLLOUT TIMELINE

- **Phase 1: Exclusive Genesis DAO Window (First 21 Days):** Only the 100 Genesis DAO seats (\$300 each) are open and active. Normal \$30 matrix slots are completely hidden and locked. Anyone can purchase a DAO seat immediately with **0 referrals required**.
- **Phase 2: Global Community Matrix Launch (Day 22 Onward):** The public 14-node matrix goes live worldwide. The standard \$30 Slot 1 matrix becomes publicly visible, allowing thousands of global participants to build teams.

2. GENESIS DAO COUNCIL RULES (\$300 SEAT)

- **Capacity:** Capped strictly at 100 seats maximum.
- **Entry Cost:** \$300 equivalent in live TROB via on-chain oracle.
- **Qualification:** 0 direct referrals needed. Open to any participant.
- **Queue Payout:** 100% of each incoming \$300 is distributed instantly to earlier members: $\$300 / (N - 1)$. Zero platform fee.
- **Ongoing Yield:** Equal continuous share of the 35% DAO Pool sourced from global matrix volume.
- **3X Cap (\$900) & 48-Hour Re-topup:** Each seat caps out at \$900 total earnings. The member has 48 hours to deposit a \$300 re-topup to reset their cap and continue earning.
- **Vacancy Scan (1 to 100):** If unpaid within 48 hours, the seat becomes vacant. New buyers scan from Seat 1 to 100 and automatically occupy the lowest available blank seat.

DAO Queue Waterfall Example:

- Member 2 joins -> Member 1 gets \$300.00 immediately (100% recovery).
- Member 3 joins -> Members 1 & 2 each get \$150.00.
- Member 4 joins -> Members 1, 2, 3 each get \$100.00.
- Member 10 joins -> Members 1 to 9 each get \$33.33.
- Member 50 joins -> Members 1 to 49 each get \$6.12.
- Member 100 joins -> Members 1 to 99 each get \$3.03.

3. PARTICIPANT MATRIX BLUEPRINT (\$30 SLOT 1 & 14-NODE LOGIC)

A participant pays **\$30 once** for Slot 1. No manual purchases for Slots 2 to 12 (100% automated self-funding via Nodes 4 & 5). A full 14-node cycle generates $14 \times \$30 = \420 gross volume:

Position In Matrix	Count	Per Node	Total Inflow	Routing & Destination
Nodes 3, 6, 8, 9, 11, 12	6 Nodes	\$30.00	\$180.00	Matrix Owner Withdrawable Net Profit (600% ROI)
Nodes 1 & 2	2 Nodes	\$30.00	\$60.00	Upline 1 & Upline 2 Sponsors (\$30 each)
Nodes 7, 10, 13	3 Nodes	\$30.00	\$90.00	Downline Team Spillover (Community support)

Position In Matrix	Count	Per Node	Total Inflow	Routing & Destination
Nodes 4, 5, 14	3 Nodes	\$30.00	\$90.00	100% to 4 Protocol Pools (Nodes 4 & 5 auto-unlock Slot 2; Node 14 recycles)
TOTAL PER CYCLE	14 Nodes	-	\$420.00	100% Accounted For • Zero Platform Leakage

4. THE 4 AUTOMATED PROTOCOL POOLS (FUNDED BY NODES 4, 5, 14)

100% of the funds in the 4 protocol pools come from Nodes 4, 5, and 14 across every slot and cycle globally:

Protocol Pool	Share %	Distribution Timing	Eligible Beneficiaries
1. Genesis DAO Pool	35.0%	Continuous / Daily	Genesis DAO Members ONLY (up to \$900 cap)
2. Monthly Salary Pool	40.0%	Monthly on the 11th	Rank Leaders ONLY (Alpha, Prime, Elite, Crown)
3. Level Rewards Pool	15.0%	Instant on Rank-Up	Rank Leaders ONLY (10%, 15%, 25%, 50% cash bonuses)
4. Magic Blind Box Pool	10.0%	Quarterly (Every 3 months)	EVERY Registered Wallet (Normal Users + DAO)

5. MONTHLY DISTRIBUTION EXAMPLE ON \$100,000 PROTOCOL VOLUME

- DAO Pool (35% = \$35,000):** Divided among the 100 DAO seats = \$350.00 per member (\$388.88 each if 90 active seats). Normal matrix users receive \$0 from this pool.
- Salary Pool (40% = \$40,000):** Split into 4 equal slices of 25% (\$10,000 per tier) on the 11th. Higher ranks stack lower-tier pools:
 - Alpha (Level 3 / 42 IDs): Splits Alpha slice (\$10,000) = **\$79.36 each** (with 100 Alphas).
 - Prime (Level 6 / 84 IDs): Splits Prime + Alpha slices = **\$463.97 each** (with 20 Primes).
 - Elite (Level 9 / 126 IDs): Splits Elite + Prime + Alpha slices = **\$2,130.63 each** (with 5 Elites).
 - Crown (Level 12 / 168 IDs): Splits all 4 slices combined = **\$12,130.63** (with 1 Crown).
- Level Rewards Pool (15% = \$15,000):** Instant cash bonuses: Alpha = 10% (\$1,500 cash + NFT Badge), Prime = 15%, Elite = 25%, Crown = 50%.
- Magic Blind Box Pool (10% = \$10,000):** Quarterly community prize draw in TROB: Common (85% of users) = \$0.50, Uncommon (10%) = \$0.80, Rare (3%) = \$1.20, Legendary (2%) = \$5.00.

6. MASTER COMPARISON: \$30 MATRIX USER VS. \$300 DAO MEMBER

Feature / Parameter	Normal Matrix User (\$30 ID)	Genesis DAO Member (\$300 ID)
Launch Access	Day 22 Onward	Days 1 to 21 (Exclusive)
Referrals Required	0 to Register & Build	0 to Buy Seat
Out-of-Pocket Cost	\$30 one-time only	\$300 per 3X cycle (\$900 cap)
Slots 2 through 12	Auto-unlocked via Nodes 4 & 5	Can also activate \$30 matrix
Queue Payout Waterfall	No	Yes (Earns from all later joins)
35% DAO Pool Share	No (\$0)	Yes (Up to \$900 cap)
40% Salary Pool Share	Yes (If rank achieved)	Yes (If rank achieved)
15% Instant Level Rewards	Yes (If rank achieved)	Yes (If rank achieved)
10% Magic Blind Box	Yes (Every quarter)	Yes (Every quarter)

7. FINAL VERIFICATION CHECKLIST FOR CLIENT

- 1. First 21 days are DAO-exclusive (\$300, 0 referrals); public \$30 matrix slots open on Day 22.
- 2. DAO \$300 entry fee distributes via queue waterfall to earlier members, caps at \$900 (3X), has 48-hour re-topup window (\$300), and vacant seats are filled by scanning 1 to 100.
- 3. Matrix participants pay \$30 once, higher slots auto-unlock via Nodes 4 & 5, and 14-node payouts split as 6 to Owner, 2 to Uplines, 3 to Spillover, and 3 to Pools.
- 4. The 4 protocol pools are funded 100% by Nodes 4, 5, and 14 of the matrix.
- 5. Salary pool (40%) is split into 4 equal slices of 25% with rank stacking on the 11th, and Level Rewards pool (15%) pays instant milestone cash bonuses (10%, 15%, 25%, 50%).
