CRITICAL DESIGNER DIRECTIVE (DASHBOARD): Eliminate all loading flashes. Feature gateways should provide 1-click access to DAO, Matrix, and Pools with real-time status badges.

Page 3 of 9

/matrix

The image displays the desktop version of the EQUORA.FI interface, which is a decentralized autonomous organization (DAO) for sovereign protocols. The top navigation bar is dark blue with white text, featuring the title "DESKTOP VIEWPORT (1440 x 900)" on the left and "CHROME / RAVE / OPERA" on the right. Below the navigation bar is a sidebar on the left with a dark blue background and white text, containing a list of menu items: "Dashboard", "Matrix Slots", "Genesis DAO", "Treasury Wallet", "Rewards & Pools", "Partners & Team", and "Leaderboard". The main content area is white and features a header with a search bar and a "CONNECT" button. The central section is titled "14-Node Autonomous Matrix" and includes a sub-header "12-SLOT BINARY MATRIX" and a status indicator "Slot #1 Active (Cycle #0)". The main text describes the system's benefits: "Experience zero out-of-pocket progression. Single-time \$30 entry automatically unlocks all 12 slots via P4 & P5 reserves while generating 700% cycle returns with endless automated recycles." To the right of this text is a diagram of a 14-node network. Below the main text is a "SELECT MATRIX SLOT (1 TO 12)" section with a grid of slots (S1 to S12) and a "Slot 1 Analytics" section showing a cost of 30.00 TROB, cycles completed of -1, and a slot total earned of 0.00 TROB. A red button at the bottom right of the analytics section reads "ACTIVATE SLOT 1 (30 TROB — ONE-TIME ENTRY)". The bottom of the interface features a dark blue footer with a "1 Issue" button and a "Wallet" link.
